

Creating a Google Chrome profile for School 360 / Google classroom can make logging in simpler.

If you've already set up a user profile in Chrome, and you want to add an additional one for School 360 go to page 3, otherwise start here.

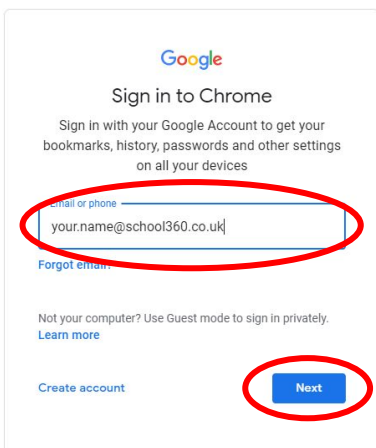

Click the profiles icon in the top right corner of a chrome window.

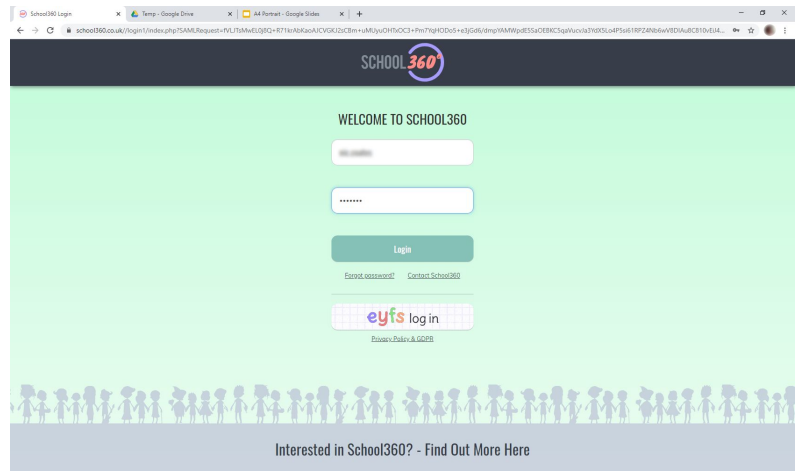

In the drop-down profiles menu click 'Turn on sync'.

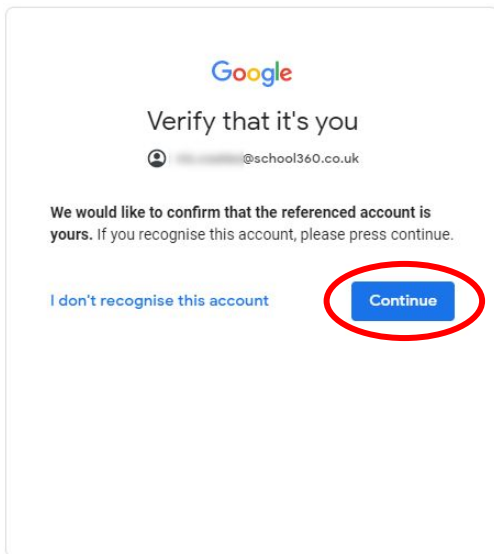

In the Chrome sign in dialogue box enter an email address in the format [your School360 login]@school360.co.uk, so, if your School360 login is john.smith, you would enter john.smith@school360.co.uk. Click 'Next'.

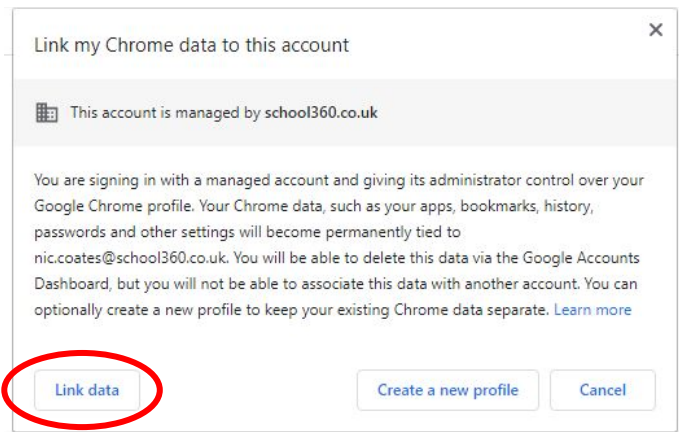

Once you click 'Next' you will be redirected to the School 360 login page. Enter your name and password and login as normal.

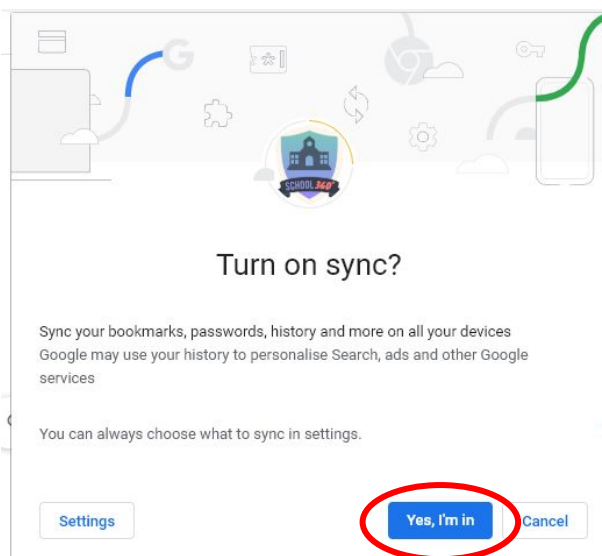

Verify that the account is correct and click **'Continue'**.

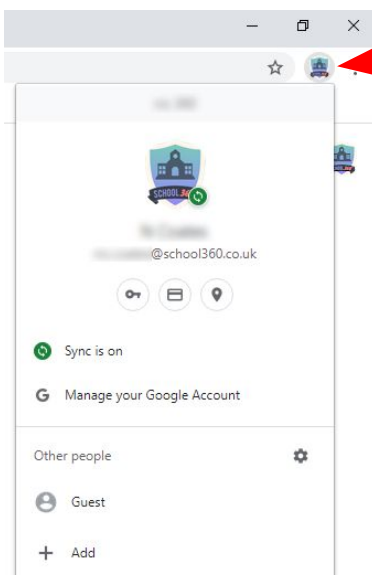

In the 'Link my Chrome data to this account' pop up window click the **'Link data'** button.

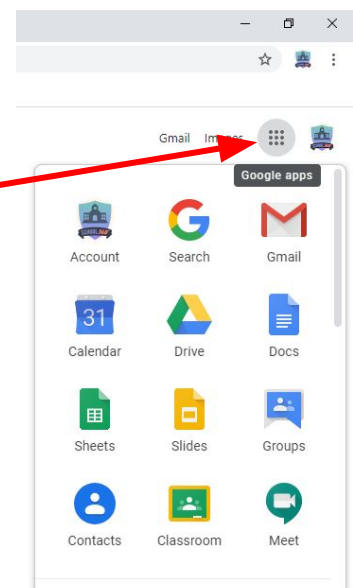

In the 'Turn on sync?' pop up window click **'Yes, I'm in'** to enable synchronization of your Chrome data.

With this profile active you should be able to access Google classroom, Google Drive and the Google Applications without going via the School 360 home page.

Quick access to Google services via the 'Waffle'

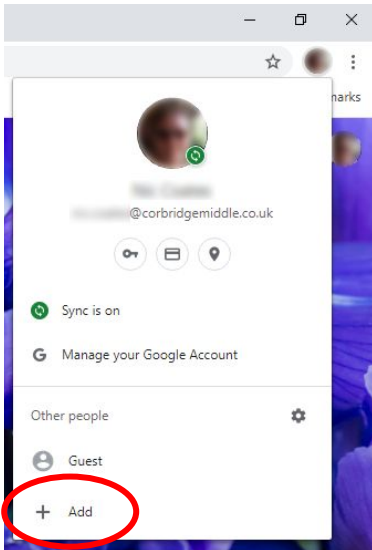

Adding a School 360 profile when you already have one or more profiles set up in Chrome

Click the profiles icon in the top right corner of the chrome window - the icon will show the profile picture from the logged in profile.

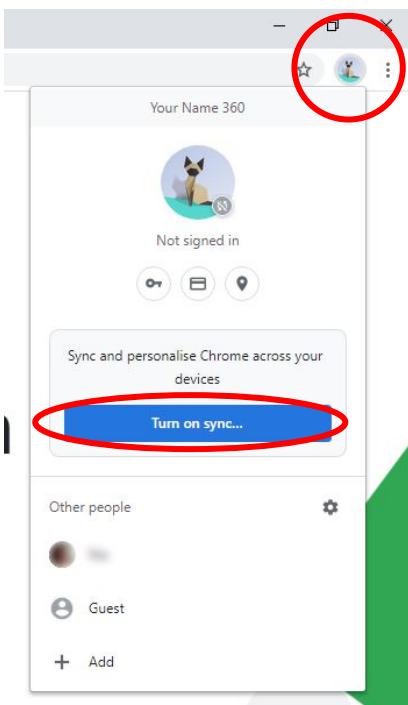

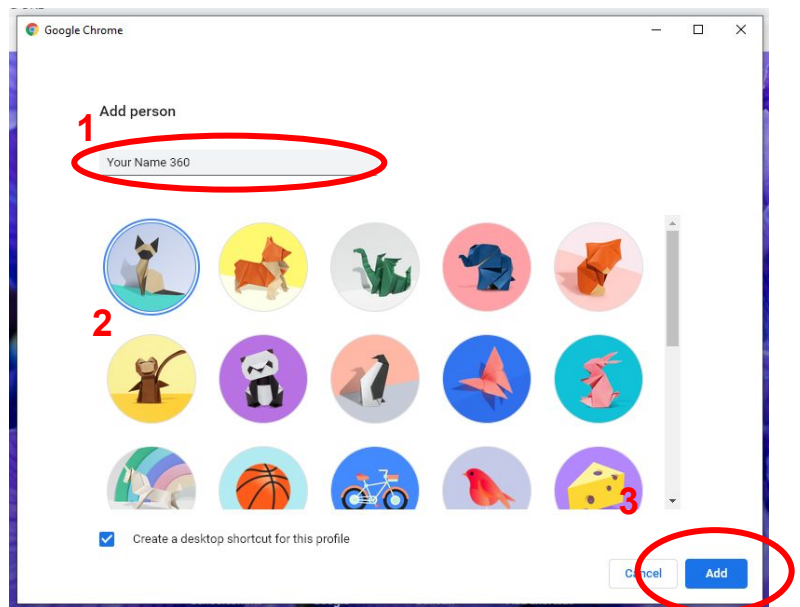

In the drop-down profiles menu click '+ Add'.

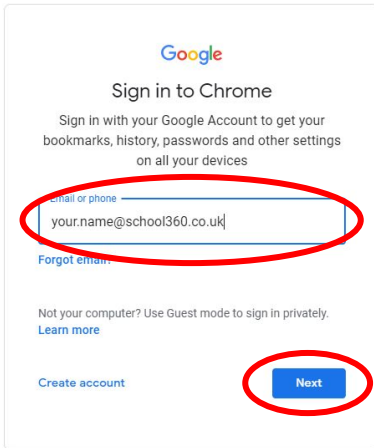

In the Add person window:

1. Give the profile a name.
2. Pick a profile icon.
3. click 'Add'.

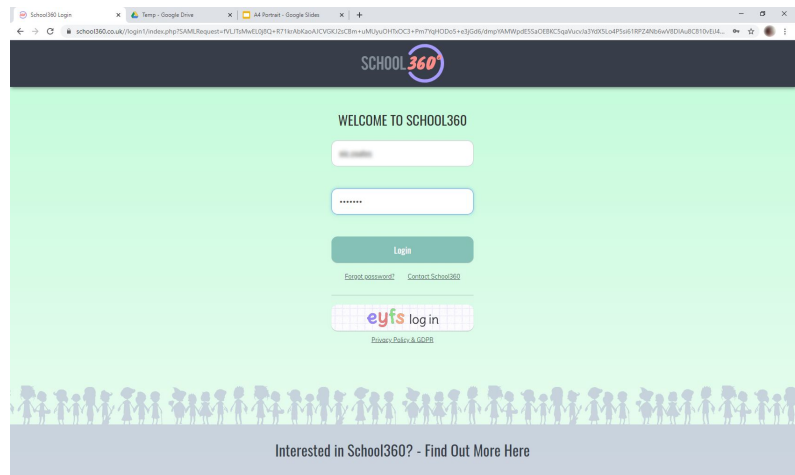

Open the profiles menu by clicking on the profile picture in the top right of the Chrome window and then click 'Turn on sync'.

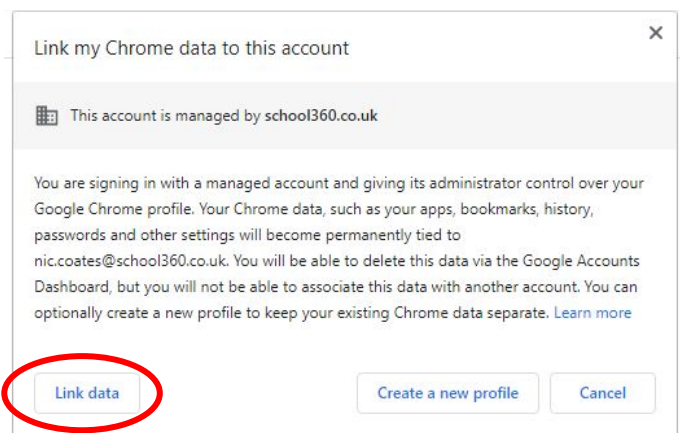

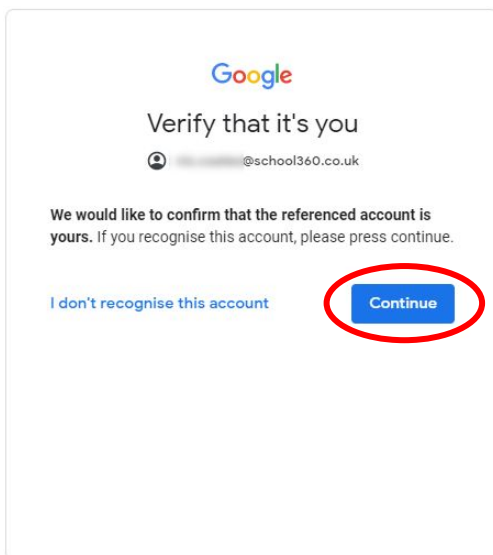

In the Chrome sign in dialogue box enter an email address in the format [your School360 login]@school360.co.uk, so, if your School360 login is john.smith, you would enter john.smith@school360.co.uk. Click **'Next'**.

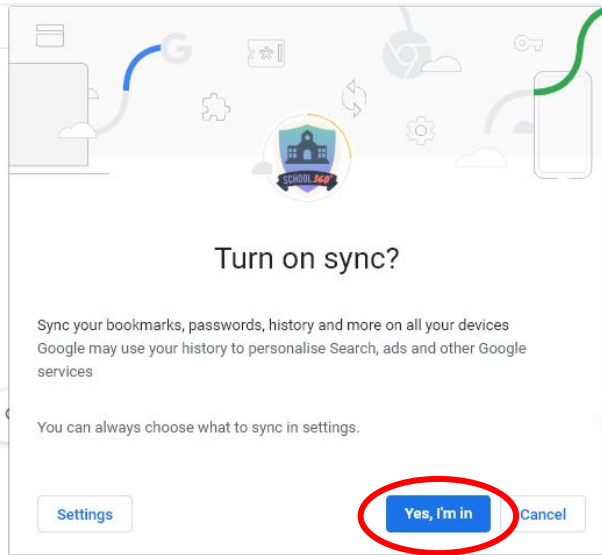

Once you click **'Next'** you will be redirected to the School 360 login page. Enter your name and password and login as normal.

Verify that the account is correct and click **'Continue'**.

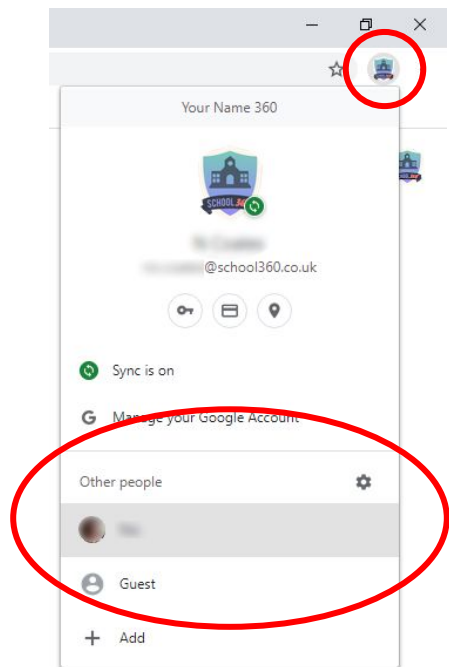

In the **'Link my Chrome data to this account'** pop up window click the **'Link data'** button.

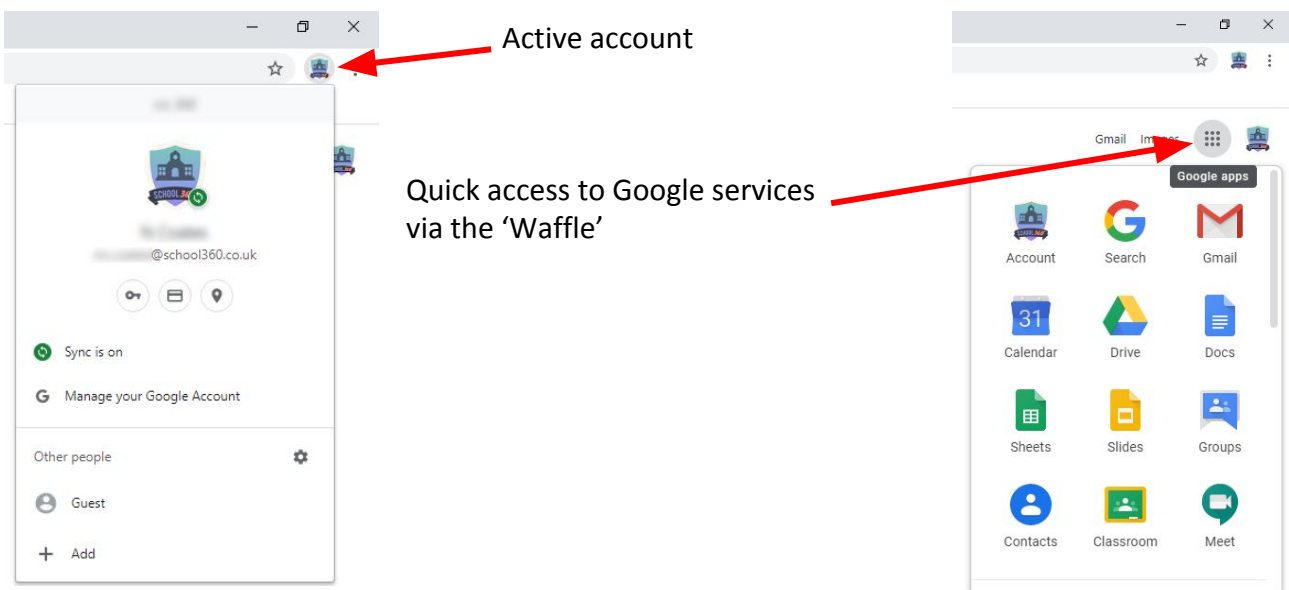

In the 'Turn on sync?' pop up window click **'Yes, I'm in'** to enable synchronization of your Chrome data.

You can now switch between Chrome profiles by opening the profiles menu by clicking on the profile picture in the top right of the Chrome window and then selecting the profile you want to switch to by clicking it in the **'Other people'** list

With the School 360 profile active you should be able to access Google classroom, Google Drive and the Google Applications without going via the School 360 home page.
